How To Make A Jumping We can think of jumping as another form of movement in Scratch, just like moving left and right when the left and right arrow keys are pressed. Games usually use the “up” or “spacebar” keys to jump. For our project, we will say that our character will jump when the player presses “spacebar.”.~~

There is basic formula from classical mechanics to make an object jump. F = 1/2 * m * v^2. Where F is the force up/down, m is the mass of the object and v is the velocity. The velocity goes down over time because when the object jumps the velocity will not increase more in this simulation. When object reaches the ground, the jump ends.~~

Make your frog jump. Set the frog down on its back legs. Press and release the center folds to make it jump. Have fun! These frogs should jump and flip quite well. If your frog isn't jumping properly, double-check your folds to make sure everything is in the right place. You can also try thicker paper, which usually has more “spring.”~~
