Includes the story “The Man in the Black Suit”—set in the fictional town of Castle Rock, Maine. A collection of 14 dark tales, *Everything’s Eventual* includes one O. Henry Prize winner, two other award winners, four stories published by *The New Yorker*, and “Riding the Bullet,” King’s original ebook, which attracted over half a million online readers and became the most famous short story of the decade. Two of the stories, “The Little Sisters of Eluria” and “Everything’s Eventual” are closely related to the *Dark Tower* series. “Riding the Bullet,” published here on paper for the first time, is the story of Alan Parker, who’s hitchhiking to see his dying mother but takes the wrong ride, farther than he ever intended. In “Lunch at the Gotham Café,” a sparring couple’s contentious lunch turns very, very bloody when the maître d’ gets out of sorts. “1408,” the audio story in print for the first time, is about a successful writer whose specialty is “Ten Nights in Ten Haunted Graveyards” or “Ten Nights in Ten Haunted Houses,” and though Room 1408 at the Dolphin Hotel doesn’t kill him, he won’t be writing about ghosts anymore. Stories include: -Autopsy Room Four -The Man in the Black Suit -All That You Love Will Be Carried Away -The Death of Jack Hamilton -In the Deathroom -The Little Sisters of Eluria -Everything’s Eventual -L. T.’s Theory of Pets -The Road Virus Heads North -Lunch at the Gotham Café -That Feeling, You Can Only Say What It Is in French -1408 -Riding the Bullet -Luckey Quarter Whether writing about encounters with the dead, the near

dead, or about the mundane dreads of life, from quitting smoking to yard sales, Stephen King is at the top of his form in the fourteen dark tales assembled in *Everything's Eventual*. Intense, eerie, and instantly com-pelling, they announce the stunningly fertile imagination of perhaps the greatest storyteller of our time.

Offers an examination of the works of the American horror writer.

Norman Kelley joins Public Enemy's Chuck D. and others to dissect the history of black music.

In August and September 1862 Confederate armies were on the move northward. Robert E. Lee was invading Maryland, Earl Van Dorn and Sterling Price were moving into Tennessee, and Braxton Bragg and Edmund Kirby Smith were advancing into Kentucky. James McPherson, in his acclaimed *Battle Cry of Freedom*, cites this period as the first of the four major turning points of the American Civil War. The Confederate counteroffensive defeated Union hopes to end the war in 1862. However, by mid-October, hard on the heels of the broad Confederate advance the Union forces had regained the strategic and operational advantage, cited by McPherson as the second turning point of the war. Union victories at Antietam in the east and Perryville in the west carried significant weight in determining the final outcome of the conflict. While vast literature surrounds the former battle Perryville has been somewhat neglected. This work seeks to alleviate that lacuna. The US Army has used Civil War and other

battlefields as “outdoor classrooms” to educate and train its officers. Since 1983 the Combat Studies Institute has produced a series of staff ride guides to assist units and classes in this training. The most recent volume in that series, Dr. Robert Cameron’s Staff Ride Handbook for the Battle of Perryville, 8 October 1862, is a valuable study that examines the key considerations in planning and executing the September-October campaign and battle. Modern tacticians and operational planners will find themes that still resonate. Cameron demonstrates that Civil War leaders met their challenging responsibilities with planning, discipline, ingenuity, leadership, and persistence—themes that are well worth continued reflection by today’s officers.

Winter in Colorado - a storm moving in, a passenger train collides with a car. US Marshal John Whicher, returning home to Texas, is called to give assistance, and locate a marshal riding onboard. On arrival, no trace of the man can be found. But a young woman asks to be arrested...An American Bullet, third in The Whicher Series, is a stand-alone story; as with all the titles, you can enjoy the books in any order.

A guide to using Microsoft PowerPoint describes how to use stories to create effective business presentations.

cattle industry from the slave days of the mid-19th century through the early 20th century.

The book discusses reforms that must be instituted to control police use of deadly force, and to establish an equitable balance of risk to protect police officers (from being hurt by armed citizens) and citizens (from being erroneously shot by police). It begins with an examination of the effects of social forces on the police, psychological characteristics of individual officers, and the problems of management and control on decision-making by individual officers, all illustrated by examples of deadly-force encounters from investigations in Newark, Miami, Birmingham and Oakland. There is a discussion of the various purposes guns serve in police activities, the cultural marriage of guns with policing, and the variety of armed confrontations faced by police officers. The traditional view that police officers' behavior can be adequately understood in terms of the final armed encounter is discredited. A comparison involving the personality profiles of some officers who have shot often and some who have rarely fired explores the role of human emotions and moral judgment in these confrontations. The text also analyzes the impact of police administrative policies upon decisions to shoot or not shoot. A final chapter examines how police departments might control unnecessary use of deadly force. (NCJRS, modified).
