The Last Season by Eric Blehm was exactly that for me. Growing up in a valley at the base of the Sierras I was easily able to transport myself into this narrative. The wilderness has always felt like home to me. Disconnecting from technology, being alone with your thoughts, and breathing in the fresh mountain air.

Destined to become a classic of adventure literature, The Last Season examines the extraordinary life of legendary backcountry ranger Randy Morgenson and his mysterious disappearance in California's unforgiving Sierra Nevada—mountains as perilous as they are beautiful. Eric Blehm's masterful work is a gripping detective story interwoven with the riveting biography of a complicated, original, and wholly fascinating man.

Chronicles the life of Navy SEAL Team Six operator Adam Brown, a man whose heroism and devotion still stand as a beacon to his friends and family, even after his death in the Afghan Hindu Kush mountains in 2010.

On a moonless night just weeks after September 11, 2001, a U.S. Special Forces team of Green Berets known as ODA 574 infiltrated the mountains of southern Afghanistan with a seemingly impossible mission: to foment a tribal revolt and force the Taliban to surrender. Armed solely with the equipment they could carry on their backs, shockingly scant intelligence, and their mastery of guerrilla warfare, Captain Jason Amerine and his ten men had no choice but to trust their only ally, a little-known Pashtun statesman named Hamid Karzai. Having returned from exile, Karzai—on the run from the Taliban—was traveling the countryside to raise a militia. The Only Thing Worth Dying For chronicles the most important mission in the early days of the Global War on Terror, when the men on the ground knew little about the enemy—and their commanders in Washington knew even less. With unprecedented access to surviving members of ODA 574, key war planners, and Karzai himself, award-winning author Eric Blehm cuts through the noise of politicians and high-level military officials to narrate for the first time a story of uncommon bravery and terrible sacrifice, intimately exposing the realities of unconventional warfare and nation-building in Afghanistan that continue to shape the region today.

The author takes as his canvas the Vietnam War, as seen through a single mission that occurred on May 2, 1968. A twelve-man Special Forces team had been covertly inserted into a small clearing in the jungle of neutral Cambodia--where U.S. forces were forbidden to operate. The team did not know they had infiltrated a section of jungle that concealed a major enemy base.

For twelve years, Andrea Lankford lived in the biggest, most impressive national parks in the world, working a job she loved. She chaperoned baby sea turtles on their journey to sea. She pursued bad guys on her galloping patrol horse. She jumped into rescue helicopters bound for the heart of the Grand Canyon. She won arguments with bears. She slept with a few too many rattlesnakes. Hell yeah, it was the best job in the world! Fortunately, Andrea survived it. In this graphic and yet surprisingly funny account of her and others' extraordinary careers, Lankford unveils a world in which park rangers struggle to maintain their idealism in the face of death, disillusionment, and the loss of a comrade killed while holding that thin green line between protecting the park from the people, the people from the park, and the people from each other. Ranger Confidential is the story behind the scenery of the nation's crown jewels—Yosemite, Grand Canyon, Yellowstone, Great Smokies, Denali. In these iconic landscapes, where nature and humanity constantly collide, scenery can be as cruel as it is redemptive.

When they meet as adolescents at Drayton Manor, the well-to-do Cassandra Drayton and the manor's stable boy, Crispin St. John, seem destined for very different futures. Yet, the two strike up a secret and forbidden friendship. Once discovered, they are forced apart, with Cassandra staying locked in her father's world and Crispin traveling to India to make his own way. Years later, when Cassandra's high-society London lifestyle is shattered by her father's spectacular fall from grace, she is surprised to reunite with her childhood friend, no longer a penniless boy but an enterprising young man who has risen through the ranks of the Indian cotton trade. As they navigate changing circumstances, fickle friendships, and social upheaval, Cassandra and Crispin find that the bond they developed as children is a lasting one.

A nature book unlike any other, Jordan Fisher Smith's startling account of fourteen years as a park ranger thoroughly dispels our idealized visions of life in the great outdoors. Instead of scout troops and placid birdwatchers, Smith's beat -- a stretch of land that has been officially condemned to be flooded -- brings him into contact with drug users tweaked out to the point of violence, obsessed miners, and other dangerous creatures. In unflinchingly honest prose, he reveals the unexpectedly dark underbelly of patrolling and protecting public lands.

The owls' home, a wooden box with a camera inside, put up by a nature-loving couple in their backyard, becomes the setting for a real-life story of love, danger and mystery --and, ultimately, the triumph of a family. Through the little camera peeking in on their home, Molly and McGee would captivate millions of people from forty-five countries around the world who shared their saga on the Internet. New York Times bestselling author Eric Blehm and award-winning illustrator Christopher Adams bring you this wonderful story sure to inform the minds and warm the hearts of young and old alike.

This riveting narrative details the mysterious disappearance of Peter Starr, a San Francisco attorney from a prominent family, who set off to climb alone in the rugged Minaret region of the Sierra Nevada in July 1933. Rigorous and thorough searches by some of the best climbers in the history of the range failed to locate him despite a number of promising clues. When all hope seemed gone and the last search party had left the Minarets, mountaineering legend Norman Clyde refused to give up. Climbing alone, he persevered in the face of failure, resolved that he would learn the fate of the lost man. Clyde's discovery and the events that followed make for compelling reading. Recently reissued with a new afterword, this re-creation of a famous episode in the annals of the Sierra Nevada is mountaineering literature at its best.

A 60-year-old son and his aging father reflect on their lives and share poignant and irreverent memories as they attend a full season of Ole Miss football games together, just as they had over half a century ago.

Having returned from exile, Karzai—on the run from the Taliban—was traveling the countryside to raise a militia. The Only Thing Worth Dying For chronicles the most important mission in the early days of the Global War on Terror, when the men on the ground knew little about the enemy—and their commanders in Washington knew even less. With unprecedented access to surviving members of ODA 574, key war planners, and Karzai himself, award-winning author Eric Blehm cuts through the noise of politicians and high-level military officials to narrate for the first time a story of uncommon bravery and terrible sacrifice, intimately exposing the realities of unconventional warfare and nation-building in Afghanistan that continue to shape the region today.

The author takes as his canvas the Vietnam War, as seen through a single mission that occurred on May 2, 1968. A twelve-man Special Forces team had been covertly inserted into a small clearing in the jungle of neutral Cambodia--where U.S. forces were forbidden to operate. The team did not know they had infiltrated a section of jungle that concealed a major enemy base.

For twelve years, Andrea Lankford lived in the biggest, most impressive national parks in the world, working a job she loved. She chaperoned baby sea turtles on their journey to sea. She pursued bad guys on her galloping patrol horse. She jumped into rescue helicopters bound for the heart of the Grand Canyon. She won arguments with bears. She slept with a few too many rattlesnakes. Hell yeah, it was the best job in the world! Fortunately, Andrea survived it. In this graphic and yet surprisingly funny account of her and others' extraordinary careers, Lankford unveils a world in which park rangers struggle to maintain their idealism in the face of death, disillusionment, and the loss of a comrade killed while holding that thin green line between protecting the park from the people, the people from the park, and the people from each other. Ranger Confidential is the story behind the scenery of the nation's crown jewels—Yosemite, Grand Canyon, Yellowstone, Great Smokies, Denali. In these iconic landscapes, where nature and humanity constantly collide, scenery can be as cruel as it is redemptive.

A nature book unlike any other, Jordan Fisher Smith's startling account of fourteen years as a park ranger thoroughly dispels our idealized visions of life in the great outdoors. Instead of scout troops and placid birdwatchers, Smith's beat -- a stretch of land that has been officially condemned to be flooded -- brings him into contact with drug users tweaked out to the point of violence, obsessed miners, and other dangerous creatures. In unflinchingly honest prose, he reveals the unexpectedly dark underbelly of patrolling and protecting public lands.

The owls' home, a wooden box with a camera inside, put up by a nature-loving couple in their backyard, becomes the setting for a real-life story of love, danger and mystery --and, ultimately, the triumph of a family. Through the little camera peeking in on their home, Molly and McGee would captivate millions of people from forty-five countries around the world who shared their saga on the Internet. New York Times bestselling author Eric Blehm and award-winning illustrator Christopher Adams bring you this wonderful story sure to inform the minds and warm the hearts of young and old alike.

On a moonless night just weeks after September 11, 2001, a U.S. Special Forces team of Green Berets known as ODA 574 infiltrated the mountains of southern Afghanistan with a seemingly impossible mission: to foment a tribal revolt and force the Taliban to surrender. Armed solely with the equipment they could carry on their backs, shockingly scant intelligence, and their mastery of guerrilla warfare, Captain Jason Amerine and his ten men had no choice but to trust their only ally, a little-known Pashtun statesman named Hamid Karzai. Having returned from exile, Karzai—on the run from the Taliban—was traveling the countryside to raise a militia. The Only Thing Worth Dying
