The last part of the chapter suggests that the governance concept may help theories of regional cooperation and integration to overcome their statist and formal institutionalist bias strengthening their explanatory power. Governance gives equal status to state and non-state actors and does not prioritize formal over informal institutions.

For an argument that distribution crises (in East Africa and Central America) must be expected to arise in such settings, thus inevitably politicizing negotiations and institutions dealing with economic welfare, see Hansen, Roger D., "Regional Integration: Reflections on a Decade of Theoretical Efforts," *World Politics*, 01 1969 (Vol. 21, No. 2), pp. 257-270. This feature, among others, leads Hansen to conclude that the neo-functional approach cannot be used for the analysis of ...
